AN : 98931938

AB : Disclosed is a length-variable sliding rail element (1) enabling a  
roller chain (2) to be easily guided. To that end, two complementary  
sliding rail elements (3, 4) fitting together and comprising each three  
segments (6, 7, 8; 9, 10, 11) are provided, the first (6, 9) of which  
is located opposite a second and a third segments (7, 8; 10, 11)  
located beyond the chain roller (14).
